

## Feed-56

feeder 5 GHz, 12 dBi, H,V-pol

### Feed-56

#### Key Features:

- 12 dBi Gain
- Flexible Solution
- All Regular Offset Suitable
- All Regular Parabolic Suitable
- Long Life Operation

#### Applications:

- Disk 28 30 32 dB.

#### Description:

Feed element with 12 dBi gain, in whole 5 GHz band from 5150 to 5850 MHz frequency, horizontal or vertical polarization. It is suitable to all regular offset and parabolic dishes giving perfect and flexible solution for point to point connections or for subscriber units.

#### Technical information

Frequenza	5150 - 5850 MHz
Gain	12 dBi
Polarization	H or V
VSWR	1.5
Impedance	50 Ohm

#### Dimensioni

Length	13.5 cm / 5.3"
Weight	240 g / 0.5 LBs
Mounting	4cm / 1.57"
Connector	N-type / female
